

Fee Increase – (Effective 6th January 2020)

This year, the Polyhigh Committee has agreed to keep fee increases at a level intended to match inflation, being a 4% increase for both the under 3's and over 3 groups.

As always, our aim with fee increases is to keep them at a level which allows us to cover our operating costs, maintain our physical environment and provide continuous improvement of our services, so that we continue to offer the highest standard of care for our children and whānau.

We have taken the view that a small increase each year is preferable (and more equitable) than a 'big jump' in any one year as inflationary pressures build.

The tables below set out what this increase means to you in cost per week depending on the number of days your children attend.
